

FINAL PROJECT PRESENTATION

FLIGHT DELAYS IN RELATION TO AIRPORTS

PAUL DE FUSCO
DSE241C3

MOTIVATION

- Frequent Airline Delays: 18% ca. in 2015
- Many factors and multiple delay types
- Controversies:
 - Airlines can define longer than needed flight duration
 - Whose fault is it if your plane is late?
 - What can be done to improve flight punctuality?

DATASET

FILES AND DATA WRANGLING

- Three files: Airlines, Airports, Flights
- Key Facts:
 - Flights is a network
 - Main attributes: origin airport, destination airport, flight number, location fields, five delay fields, departure and arrival delay, departure time, arrival time, scheduled time, taxi in/out
 - New fields: airline name, total delay, early flag, total taxi, hub carriers, focus carriers, hub counts, focus counts

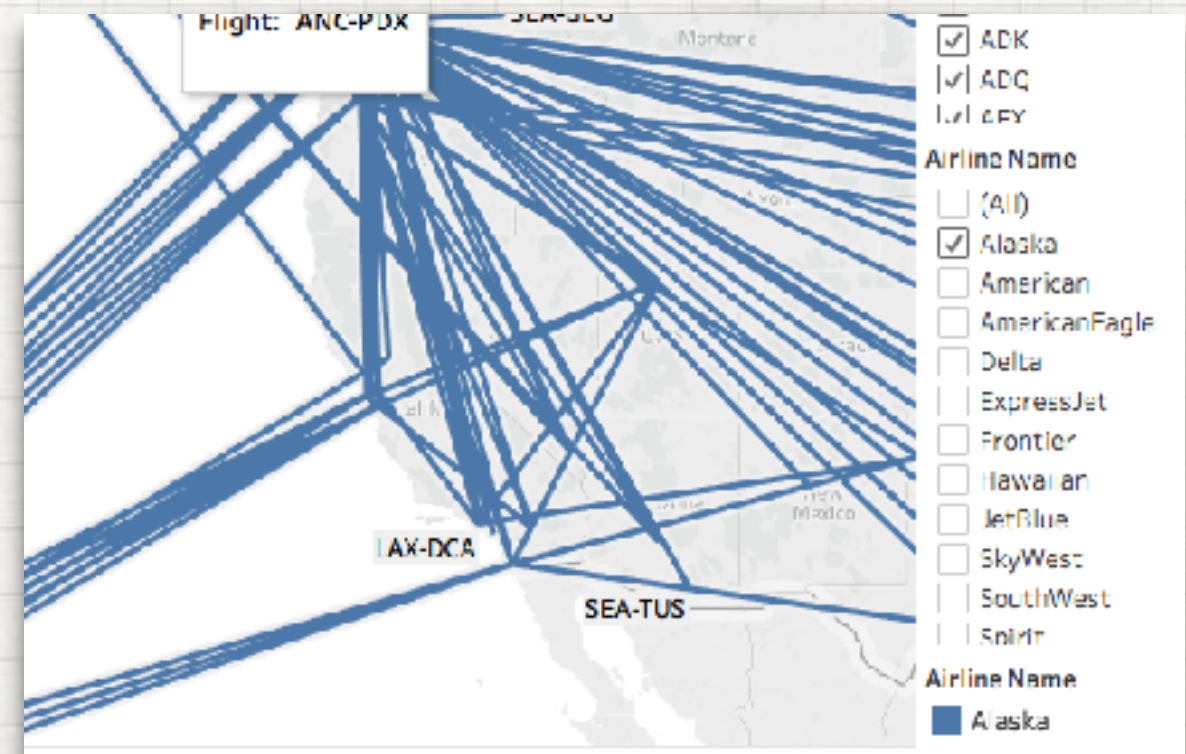

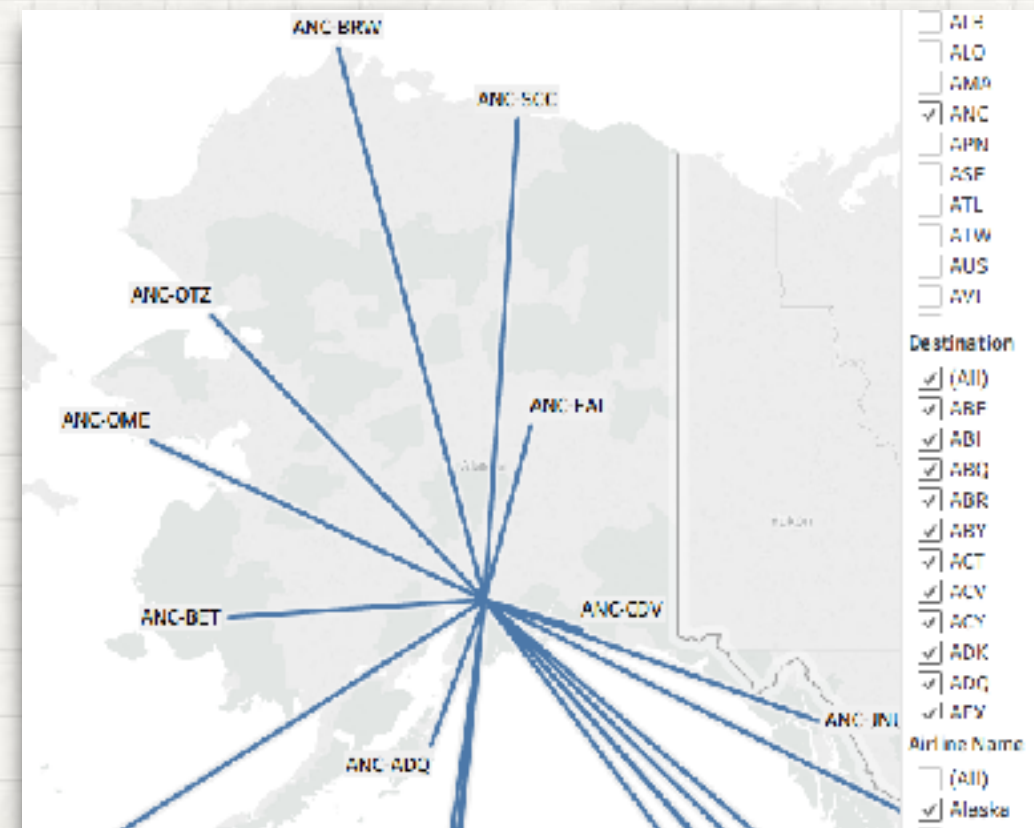

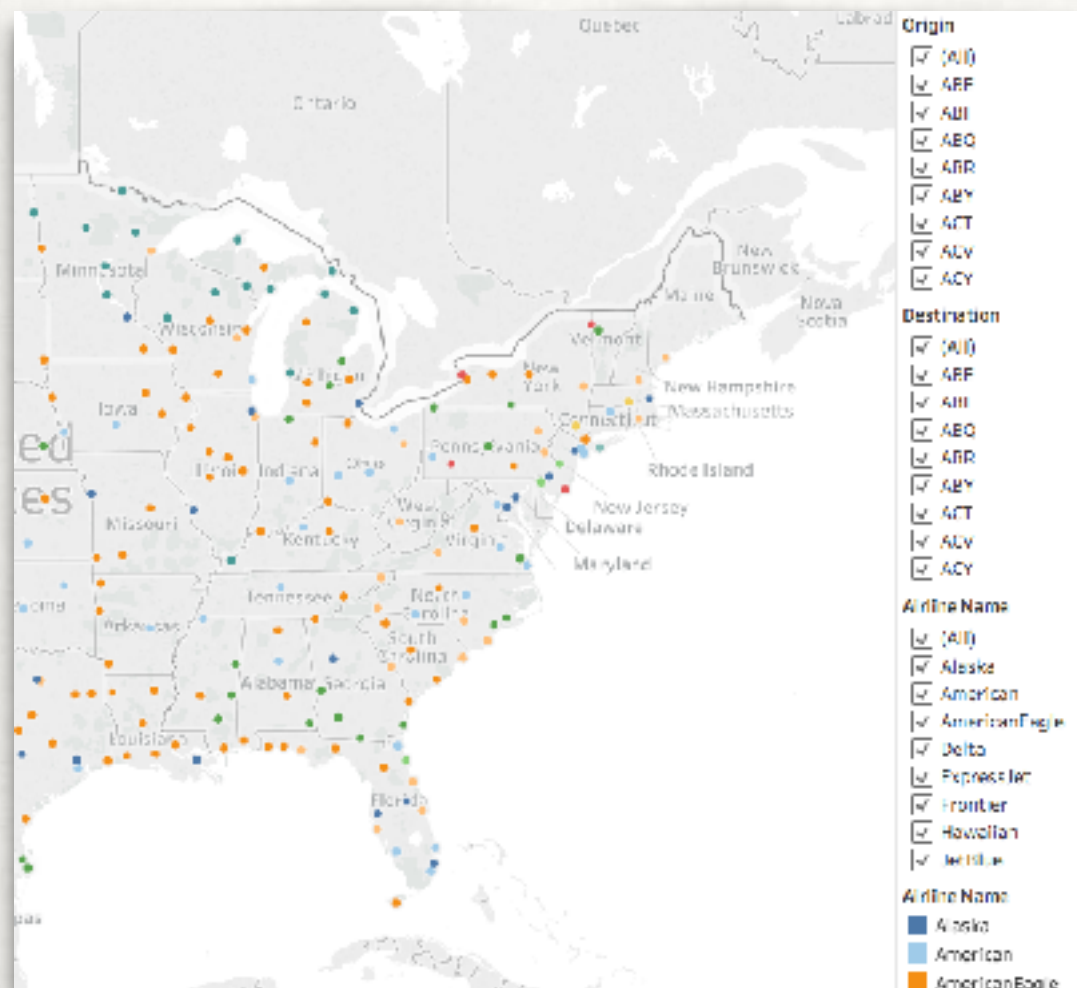

TASKS

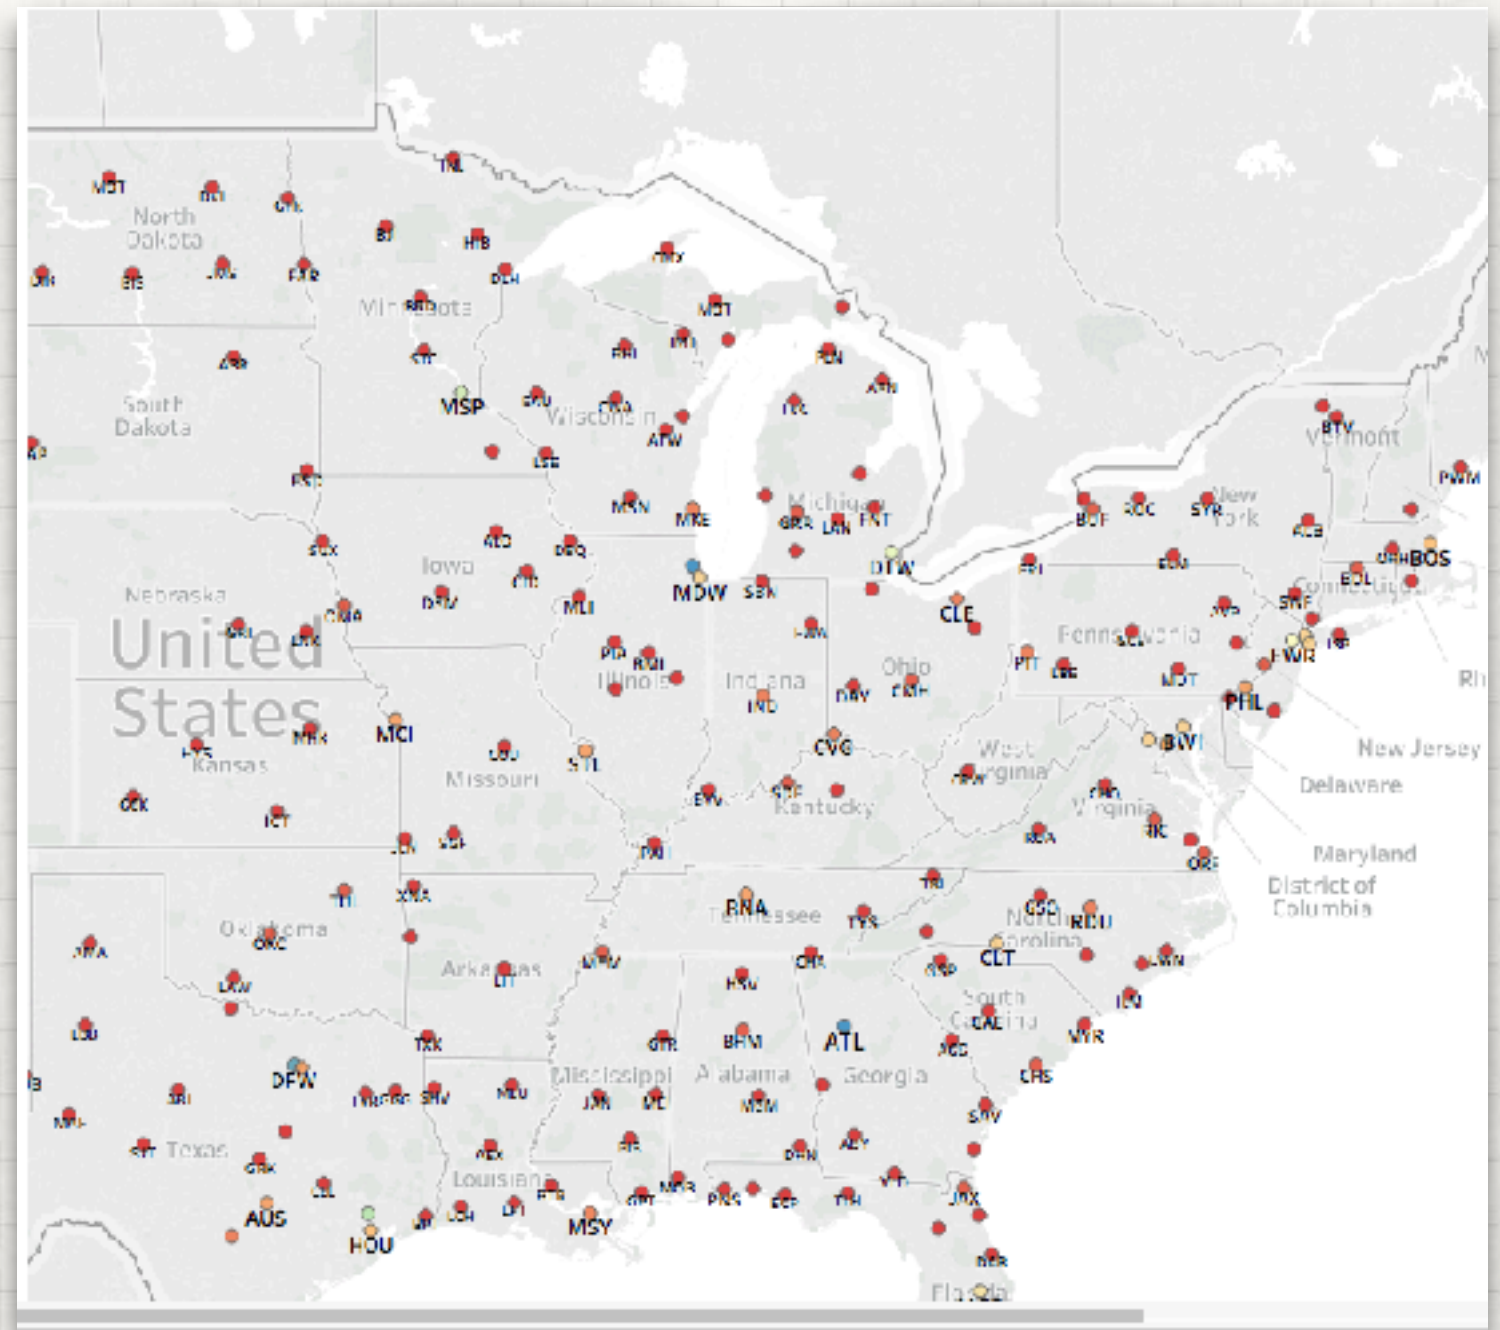

- Analyze network topology: route map, destinations map, airport accessibility, destination variety
- Analyze delays and causes: delay correlations, delays map, delays by airline, delays by airport, most delayed airports, delays for hub cities by airline, taxiing vs delays at hub vs non hub

SOLUTION

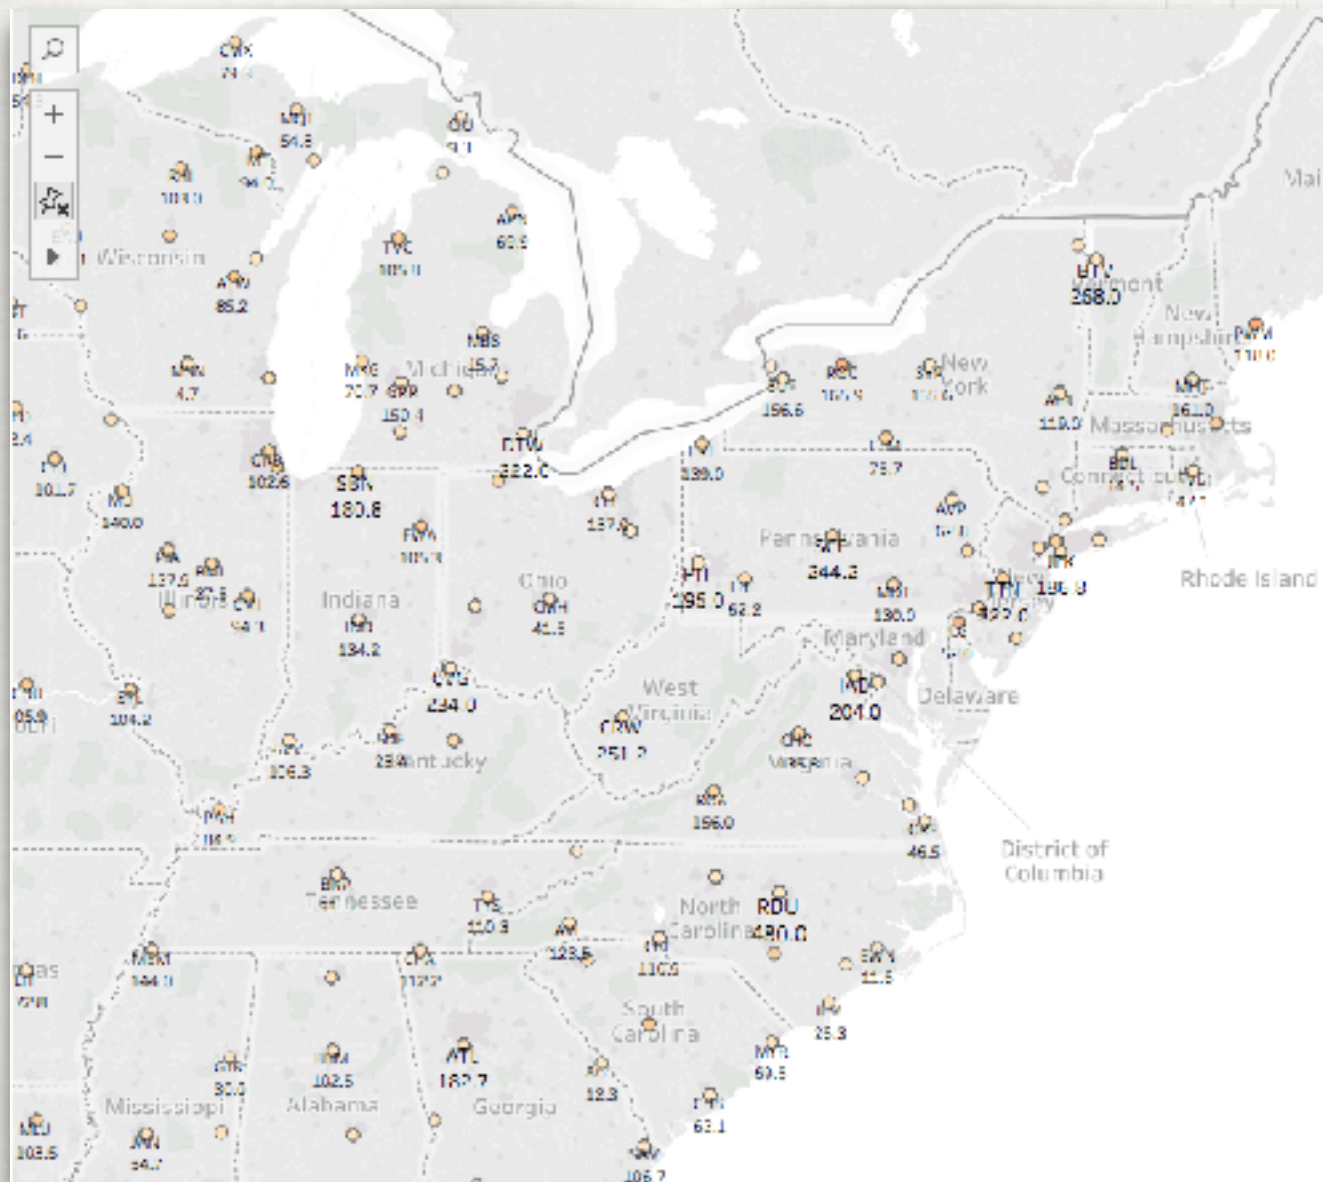

- Tableau story made by 23 idioms including interactive maps, scatter plots, charts, heat table, regression, histogram distribution, plots
- Three story phases:
 - A. Interactive Network Topology Exploration
 - B. Delay Analysis
 - C. Visualization of Results

INTERACTIVE MAPS

DELAY ANALYSIS

Aircraft	Aircraft Code	Data Code									
		ATL	BOS	CLT	CVG	DAL	DCA	DFW	DFW	DTW	DTW
AmericanEa.	AA	129.3			69.9		67.0		78.3	81.3	
Frontier	F9	73.1		41.8	41.6		51.7	64.9	60.0	123.3	
Spirit	NK	88.8	19.7					62.7	55.3	57.4	
American	AM	46.7	40.6	15.2			27.4	100.1	65.8	46.4	
ExpressJet	ED	73.6	11.2	47.4	53.0	5.3	2.6	84.6	85.8	31.3	
SkyWest	SW	91.3	77.0	27.0	32.8	54.6	19.9	98.0	35.3	47.7	
United	UA	95.7	27.5	40.1			56.4	75.8	29.3	8.6	
SouthWest	WN	55.2	68.0	28.6		42.6	15.8	61.5		29.3	
JetBlue	B6		26.0	27.5			1.2	85.7	44.8	-15.4	

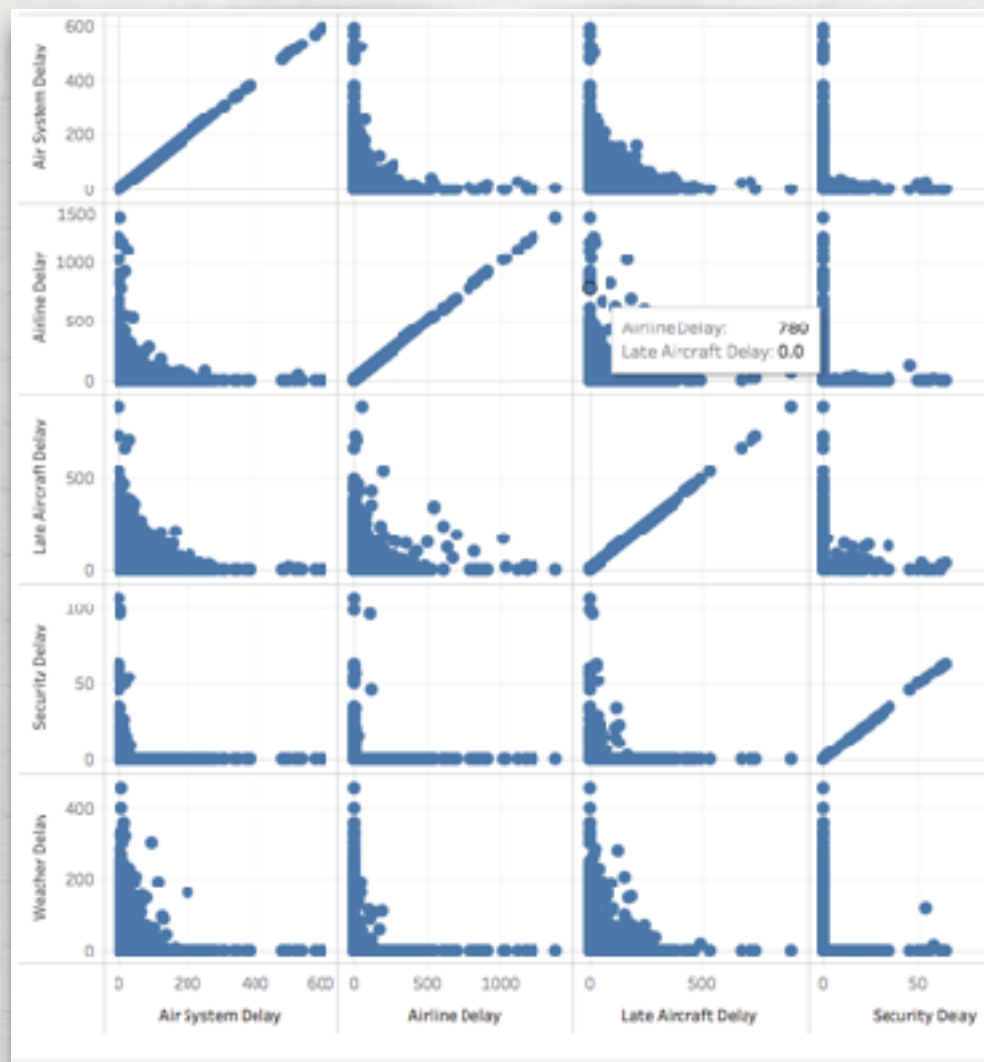

Frontier Has Highest Delays

Top Cancellation Counts Take Place at Hubs

Late Aircraft is Frequently Top Reason for Delay

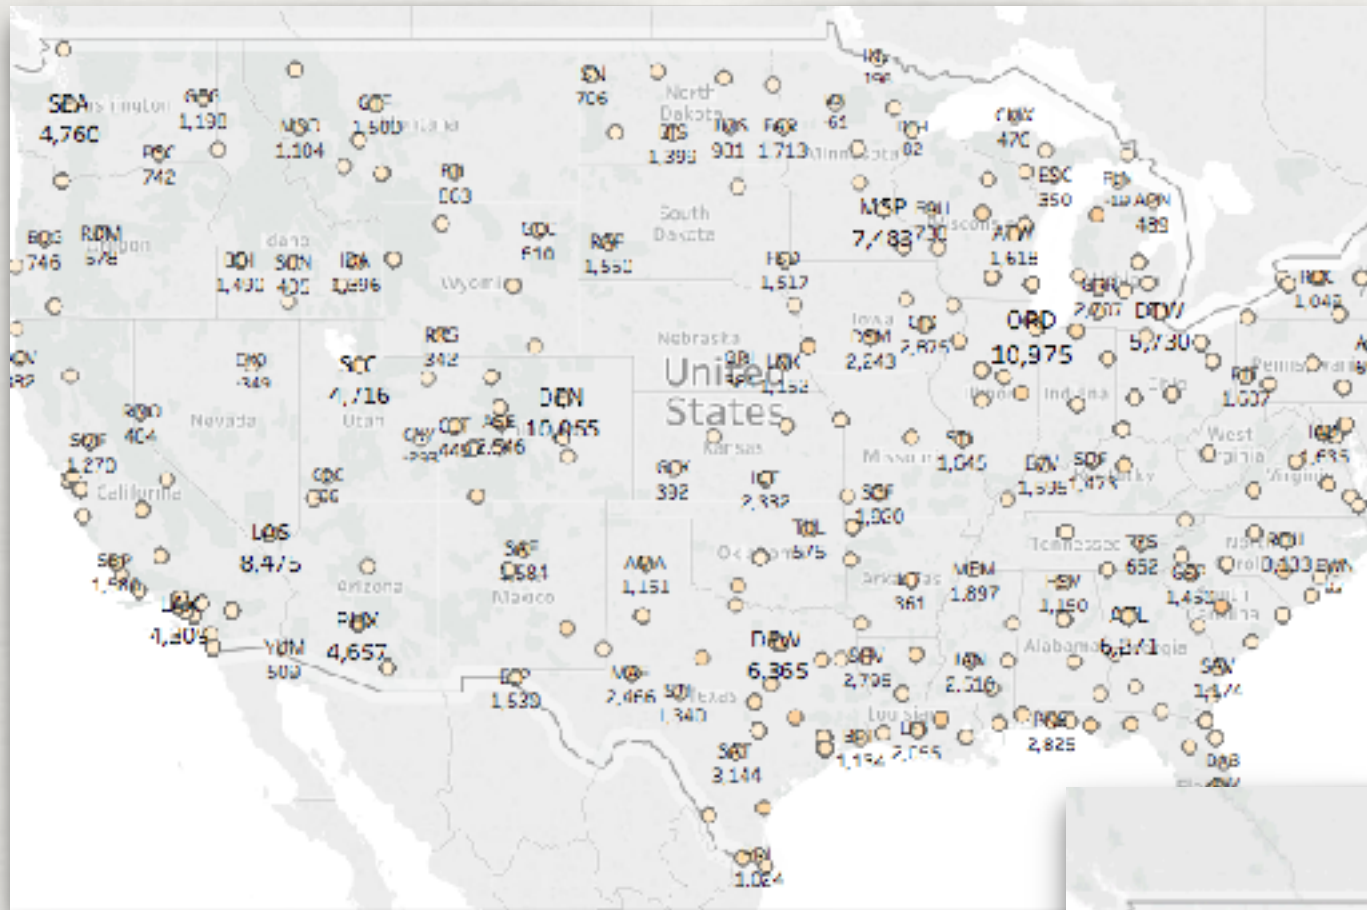

CONCLUSIONS

Hub Airport Traffic Radically
Different

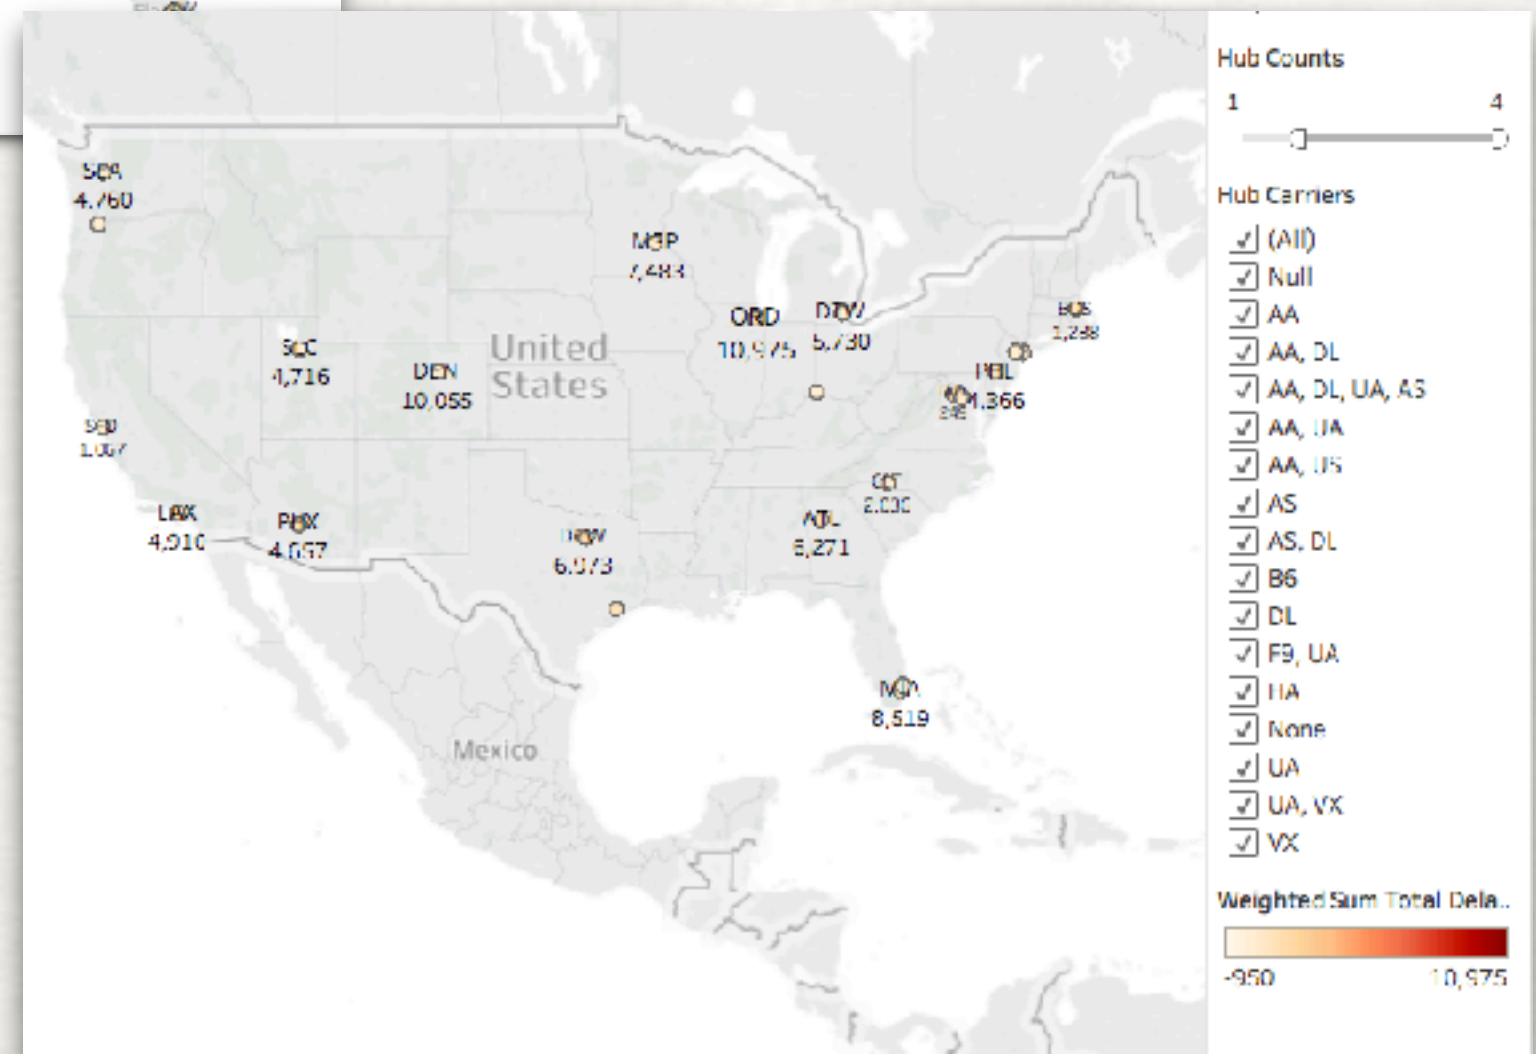

Late Flights Can Catch Up

Hub Airports Account for the Majority of Flight Delays in the US

The Cause is Congestion as Shown by Amount of Time Spent Taxiing

QUESTIONS
